

In indigenous traditions, storytelling is medicine—it heals the teller and the listener. In this session, we create space to connect and share the stories we carry from our work in rural emergency departments and from

Introduction

Storytelling is medicine

New space at emRIC conference

Let's feed our souls

Thank you to all who participate!

Theme

Rising to the call:
community, collaboration
and continuity of care

Stories must be...

True

Relate to the theme

Told, not read

6 minutes or less
